

## Donation Wish List

In the new year (2019) we will be opening a transitional supportive living house for homeless women in Edmonton. As a wellness house, women who are homeless for a variety of reasons will be able to have a safe and supportive place to stay.

In order to make this house a home for women in need, we are hoping you'll be able to help by donating gently used or new items for the women to use while they reside at Hagar's House. The items below are those we need most at this time.

Thank you and Happy Holidays!
